ACT Bibliography by Topic Area

A great deal has been written about ACT. We wanted to compile a list of published works that we believe are useful for providers seeking to implement ACT. We struggled with what to include in such a list. On one hand, we wanted to be thorough, listing as many pertinent articles, chapters, and books as we could. On the other hand, we wanted the list to be useful, particularly for those who may not generally read a lot of research. We have highlighted particularly important/relevant works with asterisks.

**Practice/Training Manuals for ACT**
- Videotapes
- What is ACT?
- ACT Studies in Indiana
- Implementation Issues
- Research Review Articles
- ACT History and Dissemination
  - Overview
  - Original Madison Project
  - Urban Adaptations of ACT
  - Rural Adaptations of ACT
  - Statewide Disseminations
  - Canadian ACT Services
- Practice Patterns in Use of ACT

**Financing and Cost Effectiveness of ACT**

**Critical Ingredients of ACT**

**Fidelity of Program Implementation**

**Staff Worker Roles**

**Mental Health Consumers on Case Management Teams**

**Integration of Services**

**Team Approach and Continuity of Care**

**Staff Burnout**

**Client-Staff Ratios**

**In Vivo Assessment and Training**

**Time-Unlimited Services**

**Criticisms of ACT**
