405 IAC 5-10-1 Providers eligible for reimbursement
Authority: IC 12-15-1-10; IC 12-15-21-2; IC 12-15-21-3

Sec. 1. Anesthesia is a Medicaid covered service only when rendered by the following Medicaid providers:
(1) An Indiana Medicaid enrolled physician other than the operating surgeon or surgeon's assistant.

(2) An Indiana Medicaid enrolled practitioner who has a license that allows him or her to administer anesthesia under Indiana law.

Sec. 2. As used in this rule, “anesthetist” means an anesthesiologist assistant (AA) or a certified registered nurse anesthetist (CRNA).

Sec. 3. (a) Services rendered by an anesthetist shall be reimbursed as follows:

   (2) Directly to the AA, provided that the AA has a provider number based upon a current state license.
   (3) To an anesthesiologist or a professional corporation employing the anesthetist or anesthesiologist at the time services were rendered.
   (4) To a hospital or other health care facility employing the anesthetist or anesthesiologist at the time services were rendered.
   (b) When an anesthetic is administered for multiple surgical procedures performed during the same operative session, reimbursement will be predicated on the allowed Medicaid payment for the surgical procedure having the highest anesthesia relative value unit.
   (c) Anesthesia services must be billed using the coding system required by the office. Anesthesia services performed during separate operative sessions must be billed separately. Each service must be coded on a separate line in order to allow base value. This does not apply to extra services performed during the same anesthesia services.
   (d) Anesthesia services associated with canceled surgery will not be reimbursed.
   (e) Local anesthesia (therapeutic or regional blocks) will be reimbursed as a surgical procedure. Time units or modifying factors associated with local anesthesia are not reimbursable. (i) Reimbursement is available for medical direction of a procedure involving an anesthetist only when the direction is by an anesthesiologist, and only when the anesthesiologist medically directs two (2), three (3), or four (4) concurrent procedures involving qualified anesthetists. Reimbursement is not available for medical direction in cases in which an anesthesiologist is concurrently administering anesthesia and providing medical direction.

(j) For single anesthesia sessions involving both an anesthesiologist and an anesthetist, the procedures performed during the session are considered personally performed by the anesthesiologist unless the Medicaid contractor has received documentation that the involvement of both the anesthesiologist and the anesthetist in the procedure was medically necessary. In cases in which the contractor receives the medical necessity documentation, reimbursement may be made for the services of each practitioner. Subsequent recertifications must occur annually thereafter, or more often, as determined by the interdisciplinary team.

(6) The certification must specify the level of care required by the recipient, and the recertification must clearly indicate the need for care to continue at this level. The certification must be signed by the physician and dated at the time of signature. Subsequent recertifications must be signed by a physician, a physician assistant, or a nurse practitioner and dated at the time of signature. (A STAMPED SIGNATURE WILL NOT BE ACCEPTED.)

(7) The admission certification and the three (3) latest recertifications must be kept in the recipient’s active medical record. All other recertification must be kept on file in the facility and be available for review purposes.

(8) Pursuant to 42 CFR 483.440(c)(3), the interdisciplinary professional team must, within thirty (30) days after admission, review and update the preadmission evaluation.

Affected: IC 12-13-7-3; IC 12-15

Sec. 1. The following definitions apply throughout this rule:
(1) “Acute medical condition” means a condition with an onset within the preceding fourteen (14) days, and sequelae of a temporary nature, including, but not limited to, sprains, spasms, infection, or joint inflammation.
(2) “Acute rehabilitation condition” means medical injury or insult, onset occurring within one (1) year, which results in impaired functioning. These conditions may include, but are not limited to, head injury, cerebrovascular accident (CVA), or fracture.
(3) “Chronic medical condition or rehabilitation condition” means any injury or insult with onset and sequelae extending past one (1) year.
(4) “Educational in nature” means instruction or training that develops the general abilities of the mind and results in learning new material, as opposed to restoring or establishing a normal condition.
(5) “Maintenance therapy” means therapy addressing chronic medical conditions where further progress can no longer be expected or where progress is minimal in relation to the time needed in therapy to achieve that progress. The recipient's inability to maintain previous therapy gains, despite an unchanging medical diagnosis or condition, would indicate that further therapy intervention would be of limited value to the recipient.
(6) “Medically necessary therapy” means therapy for the restoration of an impaired level of function caused by an acute change in medical condition.
(7) “Outpatient therapy services” means services provided to a recipient outside the recipient's primary place of residence.

Affected: IC 12-13-7-3; IC 12-15

Sec. 4. (a) The office shall reimburse pharmacy providers for covered legend drugs at the lowest of the following:
(1) The estimated acquisition cost (EAC) of the drug as of the date of dispensing, plus any applicable Medicaid dispensing fee.
(2) The maximum allowable cost (MAC) of the drug as determined by the Health Care Financing Administration under 42 CFR 447.332 as of the date of dispensing, plus any applicable Medicaid dispensing fee.

(4) The provider’s submitted charge, representing the provider’s usual and customary charge for the drug, as of the date of dispensing.

(b) For purposes of this section, the Indiana Medicaid EAC is:
(1) for brand name drugs, eighty-six and one-half percent (86.5%); or
(2) for generic drugs, eighty percent (80%)
of the average wholesale price for each National Drug Code according to the Medicaid contractor’s drug database file.

(c) The state MAC is equal to the average actual acquisition cost per drug adjusted by a multiplier of at least 1.0. The actual acquisition cost will be determined using pharmacy invoices and other information that the office determines is necessary. The purpose of the multiplier is to ensure that the applicable state MAC rate is sufficient to allow reasonable access by providers to the drug at or below the established state MAC rate.

(d) OMPP will review state MAC rates on an ongoing basis and adjust the rates as necessary to reflect prevailing market conditions and ensure reasonable access by providers to drugs at or below the applicable state MAC rate.

(e) Pharmacies and providers that are enrolled in the Indiana Health Coverage Programs (IHCP) are required, as a condition of participation, to make available and submit to the OMPP or its designee acquisition cost information, product availability information, or other information deemed necessary by the OMPP for the efficient operation of the pharmacy benefit within the IHCP in the format requested by the OMPP or its designee. Providers will not be reimbursed for this information and will submit information to the OMPP or its designee within thirty (30) days following a request for such information unless the OMPP or its designee grants an extension upon written request of the pharmacy or provider. (b) A maximum of one (1) dispensing fee per month is allowable per recipient per drug order for legend drugs provided to Medicaid recipients residing in Medicaid certified long term care facilities.

(c) The practice of split billing of legend drugs, defined as the dispensing of less than the prescribed amount of drug solely for the purpose of collecting more dispensing fees than would otherwise be allowed, is prohibited. In cases in which the pharmacist’s professional judgment dictates that a quantity less than the amount prescribed be dispensed, the pharmacist should contact the prescribing practitioner for authorization to dispense a lesser quantity. The pharmacist must document the result of the contact and the pharmacist’s rationale for dispensing less than the amount prescribed on the prescription or in the pharmacist’s records. (1) The copayment shall be paid by the recipient and collected by the provider at the time the service is rendered. Medicaid reimbursement to the provider shall be adjusted to reflect the copayment amount for which the recipient is liable.

(2) In accordance with 42 CFR 447.15, the provider may not deny services to any eligible individual on account of the individual’s inability to pay the copayment amount. Under 42 CFR 447.15, this service guarantee does not apply to an individual who is able to pay, nor does an individual’s inability to pay eliminate his or her liability for the copayment.

(3) The amount of the copayment will be three dollars ($3) for each covered drug dispensed.

The pharmacy provider shall collect a copayment for each drug dispensed by the provider and covered by Medicaid.

Separate reimbursement is available for preoperative care when the patient has never been seen by the provider performing the surgery, or the decision to perform surgery was made during the preoperative visit. The postoperative care days for a surgical procedure include ninety (90) days following a major surgical procedure and ten (10) days following a minor surgical procedure. Separate reimbursement is available for care provided during the global postoperative period that is unrelated to the surgical procedure, or for care rendered that is not considered routine postoperative care for the surgical condition, such as complications.

Sec. 1. Medicaid reimbursement is available for emergency and nonemergency transportation, subject to the following restrictions:

(1) Except when medical necessity for additional trips is demonstrated and documented through the prior authorization process, reimbursement is available for a maximum of twenty (20) one-way trips per recipient, per rolling twelve (12) month period of time. The following services are exempt from the numeric cap and do not require prior authorization, except as specified in subdivision (2):

(E) Return trip from the emergency room in an ambulance, if use of ambulance is medically necessary for the transport.

(2) Prior authorization is required for all trips of fifty (50) miles or more one (1) way.

(3) Service must be for transportation to or from an Indiana Medicaid covered service, or both. The recipient being transported for treatment must be present in the vehicle in order for Medicaid reimbursement to be available. Providers must comply with all applicable Medicaid documentation requirements, as set forth in provider manuals or bulletins, in effect on the date of service.

(4) Transportation must be unavailable from a non-Medicaid reimbursed source, with the exception of Medicaid payments for family member mileage. This source may include, but is not limited to, the following:

(6) The county office of family and children in the county in which the recipient resides must authorize all in-state train, bus, or family member transportation services. The recipient or a party acting on the recipient’s behalf must make the request for any required authorization to the county office. For purposes of this rule, in-state includes out-of-state designated areas.

(7) When a recipient needs airline, air ambulance, interstate transportation, or transportation services from a provider located out-of-state in a non-designated area, the county office or the physician must forward the request for authorization by telephone or in writing to the contractor. Telephone requests must be followed up in writing. The request must include a description of the anticipated care and a brief description of the clinical circumstances necessitating the need for transportation by air or to another state, or both. The contractor will review the request. If authorized, the transportation provider will receive the authorization to arrange the transportation. Copies of the prior authorization decision are sent to the recipient and the rendering provider.

(8) A provider is not entitled to Medicaid reimbursement in any amount that exceeds what the provider accepts as payment in full, (including any coupon, cash discount, or other type of discount) for the same or equivalent services provided to any non-Medicaid customer.

(1) Base rate means the flat fee paid by Medicaid for all trips, regardless of trip length.

(2) In addition to the base rate, mileage payments are available for loaded miles in excess of a specified number of miles as determined by the state.

(3) Waiting time is reimbursable only when the recipient must travel fifty (50) miles or more one (1) way and prior authorization has been obtained from the Medicaid contractor. Waiting time is reimbursable only for those cases in which the vehicle is parked outside the provider of medical service awaiting the return of the recipient to the vehicle. The first thirty (30) minutes of waiting time are not covered by Medicaid.

This classification includes profit and not-for-profit
entities using van, taxi, or bus type vehicles. Commercial ambulatory services are subject to maximum allowable fees. Reimbursement is available as follows:

(1) Taxi providers operating within their legal boundaries in accordance with state law whose rates are regulated by local ordinance must bill the lower of their metered or zoned rate, as established by local ordinance, or the maximum allowed rate.
(2) Taxi providers operating within their legal boundaries in accordance with state law whose rates are not regulated by local ordinance are reimbursed the lower of their submitted charge or a maximum allowable fee based on trip length.

405 IAC 5-30-8 Reimbursement for additional passengers

Sec. 8. Medicaid reimbursement is available for second or subsequent passengers in a single vehicle at one-half (½) the base rate allowance for wheelchair/nonambulatory services and commercial ambulatory services when provided in such vehicles. No additional payment will be made for mileage or waiting time for second or subsequent passengers. Additional Medicaid reimbursement is not available for multiple passengers when the provider involved does not bill non-Medicaid customers for like services. Medicaid will not make additional payment for multiple passengers in ambulance or family member vehicles. The following are the circumstances under which providers may bill for multiple passengers in a single vehicle:

(1) When a minor recipient is in need of medical services and an adult must accompany him or her, payment will be made under the commercial ambulatory services or nonambulatory services base code for the recipient and under the appropriate multiple passenger code for the accompanying adult. Payment will not be made for the transportation of an individual to accompany a competent adult to obtain medical services.
(2) When an adult recipient is in need of medical services and because of his condition must have an assistant to travel with him or her and/or stay with him in the place of medical service, the commercial ambulatory services or the nonambulatory services base code will be reimbursed for the recipient and the accompanying multiple passenger code will be reimbursed for the assistant.
(3) When more than one (1) recipient is transported simultaneously from the same county to the same vicinity for medical services, the full base code (commercial ambulatory services or nonambulatory services) will be reimbursed for the first recipient, plus mileage and waiting codes, where appropriate. Payment for the second and subsequent recipients is available for one-half (½) the base rate allowance. Mileage and waiting codes may not be billed.

405 IAC 5-30-9 Reimbursement for family member transportation services

Sec. 9. Family members enrolled as transportation providers under 405 IAC 5-4-3 are eligible for reimbursement for mileage only. Reimbursement is determined by the actual loaded mileage multiplied by the rate per mile established by the Indiana legislature for state employees. The county office of family and children in which the recipient resides must authorize all family member transportation. Office of the Secretary of Family and Social Services; 405 IAC 5-30-9; filed Jul 25, 1997, 4:00 p.m.: 20 IR 3360; readopted filed Jun 27, 2001, 9:40 a.m.: 24 IR 3822

Affected:  IC 12-13-7-3; IC 12-15-6

Sec. 10. Medicaid reimbursement is available for other transportation services, including, but not limited to, intrastate bus or train transportation. Medicaid payment for other transportation services will be at the fee usually and customarily charged the general public, subject to federal, state, or local law, rule, or ordinance. Intrastate bus or train services (including services provided in designated areas) require authorization by the county office, and interstate bus or train services require authorization from the contractor. Authorization may be given for use of monthly bus passes in situations where a recipient has an ongoing medical need so that purchase of the bus pass is cost effective when compared to the cost of other modes of transportation. Such authorization shall be given only if the recipient has agreed to the use of this mode of transportation. To be reimbursed, the bus or train company providing services must be enrolled as a Medicaid provider.

Sec. 4. Those services and products furnished by the facility for the usual care and treatment of patients are reimbursed in the per diem rate in accordance with 405 IAC 1-14.6. The per diem rate for nursing facilities includes the following services:
(1) Room and board (room accommodations, all dietary services, and laundry services). The per diem rate includes accommodations for semiprivate rooms. Medicaid reimbursement is available for medically necessary private rooms. Private rooms will be considered medically necessary only under one (1) or both of the following circumstances:
   (A) The recipient’s condition requires isolation for health reasons, such as communicable disease.
   (B) The recipient exhibits behavior that is or may be physically harmful to self or others in the facility.

(2) Nursing care.

(3) The cost of all medical and nonmedical supplies and equipment, which includes those items generally required to assure adequate medical care and personal hygiene of patients, is included in the nursing facility per diem.

(4) Durable medical equipment (DME), and associated repair costs, routinely required for the care of patients, including, but not limited to:

Nonstandard items of DME and associated repair costs that have received prior authorization must be billed to Medicaid directly by the DME provider. Facilities may not require recipients to purchase or rent such equipment with their personal funds. DME purchased with Medicaid funds becomes the property of the office of Medicaid policy and planning. The county office of family and children must be notified when the recipient no longer needs the equipment.

(5) Medically necessary and reasonable therapy services, which include physical, occupational, respiratory, and speech pathology services.

(6) Transportation to vocational/habilitation service programs.

(c) A leave of absence must be for therapeutic reasons, as prescribed by the attending physician and as indicated in the recipient’s plan of care. The total length of time allotted for therapeutic leaves in any calendar year is thirty (30). The leave days need not be consecutive.

(d) Although prior authorization by the office is not required to reserve a bed, a physician’s order for the hospitalization or therapeutic leave must be on file in the facility.

(e) Requests for reimbursement of nursing facility services shall be expressed in units of full days. A day begins at midnight and ends twenty-four (24) hours later. The midnight-to-midnight method must be used when reporting days of service, even if the health facility uses a different definition for statistical or other purposes. The day of discharge is not covered.

(f) In no instance will Medicaid reimburse a nursing facility for treating patients when the nursing facility has an occupancy rate of less than ninety percent (90%). For purposes of this rule, the occupancy rate shall be determined by dividing the total number of residents in licensed beds, excluding residential beds, in the nursing facility taken from the midnight census as of the day that a Medicaid recipient takes a leave of absence, by the total number of licensed nursing facility beds, excluding residential beds. 1. The recipient dies.
2. The recipient is determined to have a prognosis greater than six (6) months.
3. The recipient moves out of the hospice’s service area.
4. The safety of the recipient, other patients, or hospice staff is compromised.

1. located in a designated out-of-state city listed in 405 IAC 5-5-2(a); and
2. enrolled in the Indiana Medicaid program.

(b) Prior authorization may be granted for an Indiana resident to receive hospice services from an out-of-state hospice provider

Authority: IC 12-8-6-5; IC 12-15-1-10; IC 12-15-21-2; IC 12-15-40

Affected: IC 12-15

Sec. 4. (a) Hospice services require Medicaid hospice authorization by the office or its contractor. Medicaid reimbursement is not available for hospice services furnished without authorization.

(b) To request hospice authorization for Medicaid-only eligible recipients for each hospice benefit period, the provider must submit all of the following documentation on forms approved by the office:

(1) Medicaid recipient election statement.
(2) Medicaid physician certification.
(3) Medicaid plan of care.

(c) Dually-eligible Medicare/Medicaid recipients residing in nursing facilities who elect hospice benefits must enroll simultaneously in the Medicare and Medicaid hospice benefits. To obtain hospice authorization, the hospice provider must submit the following forms as approved by the office for a one (1) time enrollment in the Medicaid hospice benefit:

(1) Medicaid Hospice Authorization Notice for Dually-Eligible Medicare/Medicaid Nursing Facility Residents.
(2) A copy of the hospice agency form reflecting the recipient’s election of the Medicare hospice benefit. The form must reflect the signature of the recipient or the recipient’s representative and the date on which the form was signed.

The hospice provider is required to resubmit the forms described in this subsection when a dually-eligible Medicare/Medicaid hospice recipient residing in a nursing facility reelects the Medicare and the Medicaid hospice benefit following a previous hospice revocation or hospice discharge.

(d) Hospice authorization is not required for the dually-eligible Medicare/Medicaid hospice recipient residing at home as Medicare is reimbursing for the hospice care.

(e) Hospice authorization for the Medicaid-only hospice recipient is available in the following consecutive benefit periods:

(1) One (1) period of ninety (90) days.
(2) A second period of ninety (90) days.
(3) An unlimited number of periods of sixty (60) days.

(f) Hospice authorization must be granted separately for each benefit period for the Medicaid-only hospice recipient. If benefit periods beyond the first ninety (90) days are necessary, then recertification on the physician certification form and an updated plan of care are required for authorization of the second and subsequent benefit periods. For the dually-eligible Medicare/Medicaid hospice recipient residing in a nursing facility, hospice authorization is granted one (1) time at the time of enrollment in the Medicaid hospice benefit. Hospice authorization is not required for each hospice benefit period. Hospice authorization is required when the dually-eligible Medicare/Medicaid hospice recipient residing in a nursing facility reelects the Medicare and the Medicaid hospice benefit following a previous hospice revocation or hospice discharge.

(g) In order to obtain authorization and reimbursement for hospice services, the provider must submit the documentation listed in this section to the office or its contractor within ten (10) business days of the effective date of the recipient’s election, and within ten (10) business days of the beginning of the second and subsequent benefit periods if required under this section.

(h) When there is insufficient information submitted to render a hospice authorization decision or the documentation contains errors, a hospice authorization request will be suspended for thirty (30) days and the office or its contractor will request additional information from the provider. The provider must make the corrections and resubmit the proper documentation to the office or its contractor within thirty (30) calendar days after the additional information or correction is requested. If the provider fails to resubmit the documentation with the appropriate corrections within the thirty (30) day time period, the request for hospice authorization will be denied. If the provider submits additional documentation within thirty (30) days, but the documentation submitted does not provide sufficient information to render a decision, the office or its contractor may request additional information. The provider must submit the additional information within thirty (30) days after the additional information is requested. If the provider fails to submit the requested information within the additional thirty (30) days, or if the additional documentation does not provide sufficient information to render a decision, the request for hospice authorization will be denied.

(i) If a request for hospice authorization or supporting documentation are submitted after the time limits in this section, authorization may be granted only for services provided on or after the date that the request is received. Authorization for services furnished prior to the date of a request that does not comply with the time limits in this section may be granted only under the
following circumstances:

(1) Pending or retroactive recipient eligibility. The hospice authorization request must be submitted within twelve (12) months of the date of the issuance of the recipient’s Medicaid card.

(2) The provider was unaware that the recipient was eligible for services at the time services were rendered. Hospice authorization will be granted in this situation only if the following conditions are met:
   (A) The provider’s records document that the recipient refused or was physically unable to provide the recipient identification (RID or Medicaid) number.
   (B) The provider can substantiate that the provider continually pursued reimbursement from the patient until Medicaid eligibility was discovered.
   (C) The provider submitted the request for prior authorization within sixty (60) days of the date Medicaid eligibility was discovered.

(3) Pending or retroactive approval of nursing facility level of care. The hospice authorization request must be submitted within one (1) year of the date nursing facility level of care is approved by the office.

(j) The office will rely on current professional guidelines, including the local Medicare medical review policies for hospice services, in making the hospice authorization determination.

(k) When approval for a benefit period has been granted, a hospice provider may manage a patient’s care at the four (4) levels of care according to the medical needs determined by the interdisciplinary team and the requirements of the patient and the patient’s family or primary caregivers. Changes in levels of care do not require prior approval as long as these levels are rendered within a prior approved hospice benefit period. (Office of the Secretary of Family and Social Services; 405 IAC 5-34-4; filed Mar 9, 1998, 9:30 a.m.: 21 IR 2380; readopted filed Jun 27, 2001, 9:40 a.m.: 24 IR 3822; filed Jun 5, 2003, 8:30 a.m.: 26 IR 3636)

Authority: IC 12-8-6-5; IC 12-15-1-10; IC 12-15-21-2; IC 12-15-40-8
Affected: IC 12-15

Sec. 4.1. (a) Medicaid recipients may appeal the denial or modification of hospice authorization under 405 IAC 1.1.
(b) Any provider submitting a request for hospice authorization under this rule, which has been denied either in whole or in part, may appeal the decision under 405 IAC 1.1 after first submitting a request for reconsideration of the hospice authorization in accordance with the procedures set out in 405 IAC 5-7-2 and 405 IAC 5-7-3 for administrative reconsideration of prior authorization decisions.
(c) When there is insufficient information submitted to render a decision, or the documentation contains errors, a hospice authorization request will be suspended pursuant to section 4 of this rule, and the office or its contractor will request additional information from the provider. Suspension is not a final decision on the merits of the request and is not appealable. If the provider does not submit sufficient information within the time frames set out in section 4(h) of this rule, the request shall be denied. Denial is a final decision and may be appealed pursuant to subsections (a) and (b). Authority: IC 12-8-6-5; IC 12-15-1-10; IC 12-15-21-2; IC 12-15-40-8
Affected: IC 12-15

Sec. 4.2. (a) The office or its contractor may conduct audits of hospice services, including services for which hospice authorization has been granted. Audit of hospice services shall include review of the medical record to determine the medical necessity of services based upon applicable current professional guidelines, including the local Medicare medical review policies for hospice services.
(b) If the office determines that hospice services for a member are not medically necessary, hospice authorization will be revoked for the dates during which hospice services did not meet medical necessity criteria for hospice care. Medicaid payment for hospice services is not available for services that the office determines are not medically necessary. (Office of the Secretary of Family and Social Services; 405 IAC 5-34-4.2; filed Jun 5, 2003, 8:30 a.m.: 26 IR 3638)
Sec. 5. (a) In order for an individual to receive Medicaid-covered hospice services, a physician must certify in writing that the individual is terminally ill and expected to die from that illness within six (6) months. For a dually-eligible Medicaid/Medicare recipient, the hospice provider must comply with Medicare physician certification requirements, but the provider is not required to complete the Medicaid physician certification form or to submit the physician certification to the office. For a Medicaid-only hospice recipient, the Medicaid physician certification form must be completed and submitted to office as set out in this section.

(b) As required by federal regulations, the certification in subsection (a) must:
(1) be completed for the first period of ninety (90) days by:
   (A) the medical director of the hospice program or the physician member of the hospice interdisciplinary group; and
   (B) the recipient’s attending physician if the recipient has an attending physician;
(2) be completed by one (1) of the physicians listed in subdivision(1)(A) for the second and subsequent periods;
(3) be signed and dated;
(4) identify the diagnosis that prompted the individual to elect hospice services;
(5) include a statement that the prognosis for life expectancy is six (6) months or less; and
(6) be submitted to the office or its designee within the time frames in subsection (c).

(c) The Medicaid physician certification must be submitted for the first period within ten (10) business days of the effective date of the Medicaid-only recipient’s election. For the second and subsequent periods, the Medicaid physician certification must be submitted within ten (10) business days of the beginning of the benefit period.

(d) For the Medicaid-only hospice recipient, the Medicaid physician certification form must be included in the recipient’s medical chart in the hospice agency and the recipient’s medical chart in the nursing facility. (Office of the Secretary of Family and Social Services; 405 IAC 5-34-5; filed Mar 9, 1998, 9:30 a.m.; 21 IR 2381; readopted filed Jun 27, 2001, 9:40 a.m.; 24 IR 3822; filed Jun 5, 2003, 8:30 a.m.; 26 IR 3638)

Sec. 6. (a) In order to receive hospice services, a recipient must elect hospice services by filing an election statement with the hospice provider on forms specified by the office.

(b) Election of the hospice benefit requires the recipient to waive Medicaid coverage for the following services:
(1) Other forms of health care for the treatment of the terminal illness for which hospice care was elected, or for treatment of a condition related to the terminal illness.
(2) Services provided by another provider which are equivalent to the care provided by the elected hospice provider.
(3) Hospice services other than those provided by the elected hospice provider or its contractors.

(c) The recipient or recipient’s representative may designate an effective date for the election that begins with the first day of hospice care or any other subsequent day of hospice care. The individual may not designate an effective date that is earlier than the date of election.

(d) For Medicaid-only hospice recipient, the Medicaid election form must be submitted to the office or its designee along with the Medicaid physician’s certification required by section 5 of this rule when hospice services are initiated. It is not necessary to submit the Medicaid election form for the second and subsequent benefit periods unless the recipient has revoked the election and wishes to reelect hospice care.

(e) For the dually-eligible Medicare/Medicaid hospice recipient residing in the nursing facility, the hospice agency election form reflecting the Medicare hospice election date and the recipient’s signature must be submitted with the Medicare hospice authorization form for dually-eligible Medicare/Medicaid nursing facility residents. It is not necessary to submit the Medicare election form for the second and subsequent benefit periods unless the recipient has revoked the election and wishes to reelect hospice care under the Medicare and Medicaid hospice benefits.

(f) In the event that a recipient or the recipient’s representative wishes to revoke the election of hospice services, the following
apply:

(1) The individual must file a hospice revocation statement on a form approved by the office. The form includes a signed statement that the individual revokes the election of Medicaid hospice services for the remaining days in the benefit period. The form must specify the date that the revocation is to be effective, if later than the date the form is signed by the individual or representative. An individual or representative may not designate an effective date earlier than the date that the revocation is made.

(2) A recipient may elect to receive hospice care intermittently rather than consecutively over the benefit periods.

(3) If a recipient revokes hospice services during any benefit period, time remaining on that benefit period is forfeited.

(4) The revocation form must be completed for Medicaid-only hospice recipients as well as dually-eligible Medicare/Medicaid hospice recipients residing in nursing facilities. The hospice provider must submit this form to the office or its designee.

(5) The Medicaid hospice revocation form must be included in the recipient’s medical chart in the hospice agency. If the Medicaid hospice recipient resides in a nursing facility, the Medicaid hospice revocation form must be included in the recipient’s nursing facility medical chart as well.

(g) A recipient or a recipient’s representative may change hospice providers once during any benefit period. This change does not constitute a revocation of services. The following apply when a recipient changes hospice providers:

(1) To change the designation of hospice programs, the individual or the individual’s representative must complete the Medicaid Hospice Provider Change Request Between Indiana Hospice Providers Form or other form designated by the office for this purpose. This form is required for the Medicaid-only hospice recipient and the dually-eligible Medicare/Medicaid hospice member residing in the nursing facility. The original provider must submit this form to the office or its designee.

(2) The Medicaid Hospice Provider Change Request Between Indiana Hospice Providers Form, or other form designated by the office for this purpose, must be included in the recipient’s medical chart in the hospice agency. If the Medicaid hospice recipient resides in a nursing facility, this form must be included in the recipient’s nursing facility chart. This documentation requirement is for the Medicaid-only hospice member as well as the dually-eligible Medicare/Medicaid hospice member residing in a nursing facility.

Sec. 7. (a) When an eligible recipient elects to receive services from a certified hospice provider, the provider shall develop a plan of care. For the Medicaid-only hospice recipients, the provider must submit the Medicaid plan of care form to the office or the office’s contractor with the Medicaid physician certification and the Medicaid election statement.

(b) In developing the plan of care, the provider must comply with the following procedures:

(1) The interdisciplinary team member who drafts the plan must confer with at least one (1) other member of the interdisciplinary team.

(2) One (1) of the conferees must be a physician or nurse and all other team members must review the plan of care.

(3) All services stipulated within the plan of care must be reasonable and necessary for the palliation or management of the terminal illness and related conditions.

(4) For the Medicaid-only hospice recipient, the Medicaid hospice plan of care must be included in the recipient’s medical chart at the hospice agency. If the Medicaid-only recipient resides in a nursing facility, the Medicaid plan of care must also be included in the recipient’s nursing facility medical chart.

(5) For the dually-eligible Medicare/Medicaid hospice recipient residing in a nursing facility, a coordinated plan of care prepared and agreed upon by the hospice and nursing facility must be included in the recipient’s nursing facility medical chart.
